Now, look at the photo above and then read the following: A doodled house is a just a square with a triangle on top and a heart in the middle (because a house is not a home without heart!) A sun is just a circle with little stick lines coming out from it. A tree is the eÁÁÁÁletter YeÁÁÁ doodled with a circle around it. Clouds are just humps and bumps that connect together and are doodled near the circle with little stick lines coming out of it. A fence is the same as the sticks that come out of the circle in the sky (There is no fence in this example.). Hills are just uneven curved lines that go from one side of your page to another and have all of the above mentioned shapes above it. Watch the eÁÁÁADoodle & Color VideoeÁÁÁ (password is houseonthehill) and then come back and go through the step-by step photos on how to create a doodle similar to the one pictured above. The dots are there for you to see what I am telling you to draw. USE A PENCIL FIRST. Start approx. 1/3 up from the bottom and from one side of your paper to the other. Draw in curved uneven lines to create the eÁÁÁÁhills.eÁÁÁÁ Draw a square almost but not quite in the center of the hill.Á Á Add a triangle to the top. Add another curved uneven line to create a hill in the background. Add a circle and small stick lines coming out of the circle in the upper right corner (a sun). Add a eÁÁÁYeÁÁÁ to the left side of the square and a smaller eÁÁÁYeÁÁÁ to the hill in the background that you created in step #3 and draw a circle around each one to create a tree. Á Á Add humps and bumps to create eÁÁÁAcloudséÁÁÁ in the sky. Create eÁÁÁAsectionséÁÁÁ in the hills here and there. Á Á Á Now that you have your picture all sketched in lightly with pencil, it is time to go over those lines with a black pen. Ál e iuq ngised id 'op nu a sharpie pen, some handcrafted acrylic paints and, of course, a paint brush & water! the short video shows you how I extract my canvas and then the photos step by step will accompany you through how I paintproject. After the video, just follow the photos while I accompany you through the rest of the project. This is an easy and fun project to do with friends, children or both! Have fun! The password of this video is awndcanvas Once you've written what you want on your canvas, it's time to paint. I'm using some paint colors and some cheap brushes. I'm starting from my canvas painting the background. It's a thin coat and I paint and around words and shapes. Don't forget to paint the sides! Please note that my paint goes outside the lines and it's okay if your too! I used black paint to fill in letters (or if this makes you nervous, use the Sharpie!) · I used a smaller brush and started filling in the background areas around shapes and words. Use your fingers to paint and don't worry if you cover words. All right, 'cause we'll take care of it later. Take a look at the next picture. Here are some things I have done: Once your canvas is all painted, it is time to add details, before going over the black lines with your Sharpie or a thin brush and black paint. Once dry, using a white pen or a white paint, add lines, points and point points or do what you are doing convenient. I used the pen and added the rows to the letters, flowers and edges. Instead of "outlining" the word, try "inlining" the word Split the stems into segments and inline and outline the petals Add "stamps" and points here and there for a little added detail. I also used the white pen to add some shadows to some of the letters. Finish your canvas by adding white to the border around the canvas and call it done! One last thing... Consider doodling your "Home Sweet Doodled Home" on a piece of cardstock that measures 4x6 and then itand give it as a gift. even better, incorporate the addressThe recipient in the doodle! Á Remember, gifts made from the heart are the best! Only color.... sit, relax, print some downloads and only color. In the right sidebar there are three of my most recent scarabocchi there to print and color. All you have to do is double-click the link, press CNTRL P and print it out! Here is a look at what I did with them: While you practice your scarabocchi, your letters and your coloring, always remember to think a little out of the patterns. Add lines, circles, boxes, edges and color. Color combinations you may not use usually ... and enjoy the process! Thank you so much for joining me in a completely new doodle! P.S. I will use one of these motifs above as a seam pattern..shhh! pattern..shhh!
